

ROWALLAN
CASTLE
ESTATE

ECO-HOMES FROM
£340,000

HAVE YOUR OWN HOME BUILT AT ROWALLAN CASTLE

Have you ever dreamt of living in a castle? Well now you can by having your new home built in the grounds of one Ayrshire's most historic castles, the 13th century Rowallan Castle!

Building plots have now been released to give you the opportunity to live in these spectacular grounds, in a brand new contemporary eco-home.

We've made it as easy as possible for you to have your ideal home designed and built through a well-established process called custom-build. We help you design a house that suits you, your family and your lifestyle. We provide a choice of existing house styles, the architect to customise those if you wish or to design a house from scratch – in summary, all of the help that you need to get a set of keys in your hand to your new dream home !

Residents will not only be welcomed onto the estate; they will also receive a year's membership to its 19-hole championship golf course, designed by Ryder Cup winning Captain Colin Montgomerie, which features a stunning Clubhouse and the much-acclaimed Glasshouse Restaurant.

The estate will feature 66 stunning custom-build homes with standard features including wooden staircases and triple glazing and options available including media rooms; guest suites, and a wide range of luxury flooring, tiling and other finishes and fittings.

The first phase of plots is selling quickly and construction is anticipated to start at the end of September.
